

HOSPITALITY NETWORK MODERNISATION

The property's network predates streaming. Guests complain in reviews, the PMS shares a switch with the lobby printer, and every renovation adds another unmanaged box in a ceiling. You need hotel-grade Wi-Fi and a network you can actually see.

PRODUCT FAMILIES

Core

ECS5550-30X · ECS4650-54P

Floor access (PoE)

ECS4150-28P · ECS4100-52P
